Personal Summary

   A Junior Software Developer, a Code Institute and a Northcoders Software Development bootcamp graduate. My technical expertise includes JavaScript, Python, HTML, CSS, React and Django. Experience with AWS through the In4.0 Group, a Cloud Practitioner Certificate and a solid foundation in test driven development, pair programming, React, Django and Bootstrap frameworks. Through customer service, sales and gaming industry roles, I gained excellent collaborative, communicative, and creative problem-solving skills. I am enthused to enter the tech industry and contribute to a team or organisation, where I can continue to learn.

Certifications

- NorthCoders Full Stack Software Development Course (16 Weeks, 35 Hours per week)
- Code Institute Full Stack Software Development (16 Weeks, 35 Hours per week)
- AWS Cloud Practitioner - AWS ReStart (12 Weeks, 35 Hour per week)
- Coders Guild - Get Hired as a Junior/Apprentice Developer (12 Weeks)

Tech Interests/Additional Information

- Participation in Code Institute Hackathon : Frontend HTML CSS - I was the scrum master on this collaborative project and took responsibility for agile project management.
- Participation in Softwire Group: A11y Accessibility workshop - Gained significant understanding of the needs of visually impaired users, the use of screen reader technology and Aria labels.
- I like to train my JavaScript logic ability daily on Codewars katas, where I have attained 4th kyu rank.
- I build custom PCs which I sell privately and I enjoy performing hardware maintenance and modification.
- I refurbish Macs and use unsupported OS patchers as a way of reducing E waste.
- In my spare time I practise Yoga and Capoeira for health and social.
- I enjoy different languages and I have learnt to speak some Mandarin and Portuguese.
